B-Tech AV Mounts announce availability of a new mounting solution for the Mersive Solstice Pod

Mersive Technologies' Solstice Pod is a high-performance, in-room collaboration platform which enables users on any connected device to easily, share, control, and mark up content on in-room displays to drive more efficient, engaging, and productive meetings. Users wishing to mount the pod will now be able to use the BT7886 from B-Tech - an official mounting partner to Mersive - to secure the device in any configuration that suits their application.

Designed by B-Tech's in-house product design team, the BT7886 Mersive Solstice Pod Mounting Cradle allows the pod to be mounted in a variety of different configurations according to the user's needs; directly to a wall or underside of a desk, to a compatible B-Tech accessory collar for pole mounting, or to the back of a screen when used in conjunction with an existing screen mount.

With features that include an open design to help keep the mounted pod cool when in use, security screws and an integrated slot for a Kensington lock (*lock not included*) to help prevent unauthorised removal of the device, the BT7886 is a convenient, practical and easy to install solution.

For more information about the BT7886 Mersive Solstice Pod Mounting Cradle, please visit www.btechavmounts.com/bt7886 to view full product information, a specification sheet, image gallery and technical drawings. For more information regarding Mersive's collaboration platform and hardware, please visit their product page by clicking [here](#).

About B-Tech AV Mounts

B-Tech AV Mounts is an industry leading brand of professional AV mounting solutions which are recognised worldwide for their reliability, robustness, ease of install and design aesthetics. Established in London in 1972, B-Tech is a global organisation with offices and distribution centres located across the globe, providing customer support that combines all the benefits of a global organisation with the focused, dedicated approach of a personal, localised service. B-Tech mounting solutions cover all AV requirements ranging from small, single screens to large format displays, projectors, speakers, interactive touchscreens and UC equipment, as well as large, multi-screen video walls and digital signage. Designed to stringent TUV and UL safety standards by our in-house team of engineers in the UK, B-Tech products are available as wall or ceiling mounts, desktop stands or as freestanding, mobile or bolt-down floor stands. Previous winner of the sought-after AV Manufacturer of the Year crown, B-Tech AV Mounts products are found in prestigious hotels, shopping malls, government facilities, corporate offices, sports stadia, restaurants, airports and conference facilities worldwide.
